Our Land Tours

Electrobike - Grand Port

Grand Port

Our journey begins with coffee or fresh juice in the colonial house, '**Jardin de Beau Vallon**'. Under the protective gaze of Lion Mountain, we head to '**Bois des Amourettes**', a small village whose jetty, built during the **Vieux Grand Port naval battle**, provides an amazing view of the surrounding islets. (Optional)

Our next stop, the **Dutch-built 'Frédéric Hendrick Fort'**, the first stone building of the Indian Ocean. During the week, we meet **craftsmen** weaving traditional "vacoas" baskets, a dwindling trade of Vieux Grand Port villagers for 200 years. (Upon request on weekends). You may even get the opportunity to participate in the weaving of baskets with the craftsmen

Afterwards we join up with Pop, one of the last "ranzer pirog" or **marine carpenters** of the island, and savour tamarind juice prepared by his wife, Salima.

We resume our journey and head towards the undulating landscape of '**Vallée de Ferney**', a magnificent wildlife reserve. An endemic plant (the Ebony tree) is set to be replanted there. Symbolic gesture to allow the reforestation of the Valley

Perched at the top of the Cliff, we sample the local menu for lunch at "**Falaise rouge**" restaurant while enjoying the panoramic view. Our route leads us to **Cavendish Bridge** where we cross La Chau river and reach 'Ville Noire'. This neighboring village of **Mahebourg** is highly authentic, swarming with villagers and local merchants.

To the **seafromt promenade** to admire the splendid view of the Vieux Grand Port Bay, Lion Mountain and Mouchoir Rouge Island. To end this journey in the heart of history, we go to the **National Historical Naval Museum** in Mahebourg located in an old colonial residence and showcasing an interesting collection of relics recovered from sunken ships, models, old maps and weapons, wonderful lithographs of remarkable Mauritians, landscape paintings and even the skeleton of the famous dodo... (The museum is closed on Wednesdays, Sundays and public holidays)

Catamaran – East

East Coast, Barbecue, Snorkeling, Grand River South East Waterfall, Ile Aux Cerfs Island

On the East Coast, sail across the Trou d'Eau Douce Bay and experience a paradisiac day .

Time to answer the call of the ocean: out in the lagoon, immerse yourself in the crystal clear waters and snorkel among patches of staghorn coral, populated by minuscule fish and more odd-looking species

Back on board, the barbecue grill gets going as lunch will be served shortly... and what a great lunch that is: fresh fish and chicken grilled to perfection and served with a selection of salads and a side of garlic bread.

As the boat glides smoothly towards the waterfall of Grande Rivière Sud Est (GRSE). Jump onto a ferryboat that will take you right under the splash of the waterfall. The waterfall is modest in size, but the surrounding flora is reminiscent of a rainforest, with luscious creeping plants and trees lining either side.

Next stop: the famous Eastern islet we call Ile aux Cerfs. The catamaran slips through a mangrove forest, an ideal nursery for the surrounding marine ecosystems. Ile aux Cerfs is unique in many ways: during the low season, the islet is an idyllic desert beach with calm, shallow waters that are safe even for young children. Explore the island on foot and find hidden coves on its other side.

The day ends as beautifully as it starts as the boat sails to mainland

Our Sea Tours

Catamaran – West

Tamarin Bay, Black River Bay, Snorkeling, Crystal rock, Benitier Island

It's time for a sunny getaway on the West Coast. Step on board the catamaran and look inland up at the Black River mountain range and the mythical Morne Mountain, named as part of World Heritage by UNESCO.

As the catamaran leaves the bay, the scenery unfolds in all hues of green and blue. Our first stop: Tamarin Bay. Keep an eye out for pods of spinner or bottlenose dolphins that stay in our western coastline waters

The boat then heads to Black River. In the lagoon, a patch reef about 2 metres deep, harbours colourful fishes and small crustaceans. Get into your snorkeling gear and chase after butterfly fish or tease passing trumpet fish while admiring the coral outcrops spread on the white sand.

On board, lunch awaits you. Feast on grilled fish and chicken with various salads, as well as bananas flambéed in rum for dessert, depending on the season.

Sail to the Bénitiers island and its famous Rock, which stands over the turquoise lagoon. Also, snap a picture next to this mysterious outcrop that features endlessly on Mauritian postcards Hop onto a fisherman's boat, which will ferry you to the island's sandy beaches, where you can laze around in the sun or start an exploration on foot.

Of course, you can also choose to stay on the catamaran and jump off the deck into the best swimming pool in the world: the Indian ocean!

This cruise is as the coast's reputation itself: laid back, sunny and wonderful.

The Magic

Triolet Base, Port-Louis, Benitier Island, Le Morne UNESCO, Underwater Waterfall, Chamarel 7 colored earth, Black River Gorges, Tamarin Falls, Pieter Both and Le Pouce mountain

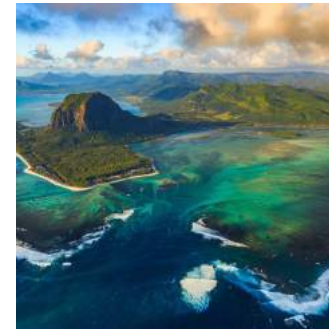

Let the magic of Mauritius take over...

For 40 minutes of flight, the helicopter Tour brings to you the best of Mauritius. A warm welcome awaits you at our Triolet base and you can enjoy the comfort of the lounge while waiting to board the helicopter. After a briefing session about your flight, the wonderful journey starts !

Seen from the sky, the busy city of Port-Louis is a wonderful show. The sixteen silos of the Moulin de La Concorde and the ships at the dock will mark the beginning of your helicopter tour. Do not forget to keep an eye on the Albion Lighthouse ! From flying over green spaces and blue lagoons, you will soon reach Benitiers Island (Ile Bénitiers).

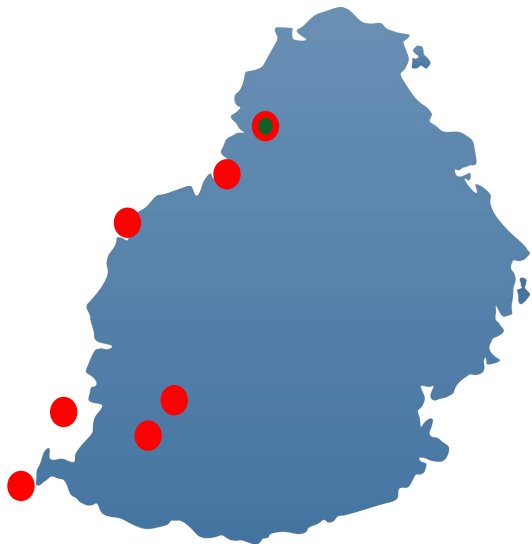

Overlooking the south-western lagoon is the majestic Le Morne Brabant, officially a UNESCO heritage. The Undersea Waterfall with its shades of blue and green seems to plunge to infinity while the kaleidoscope of coloured-earth of Chamarel will give you an insight of magic ! The Black River Gorges allows you to admire the endemic flora and fauna and the waterfalls of Tamarin are just thin curtains revealing rocky plates sculpted by Nature.

The Pieter Both mountain is one of the key attractions of Mauritius. The legend goes by a man who broke a pact with angels and was thus transformed in a mountain! At last, if you have not been able to climb the Le Pouce mountain, an overflight by Helicopter will be an absolute delight !
